The Journal of Genetic Psychology, 2002, *163*(4), 507–510

Index to Volume 163

This annual index is organized by first author and by title. Page numbers refer to the following issues:

Number 1 (March): 1–128
Number 2 (June): 129–256
Number 3 (September): 257–384
Number 4 (December): 385–512

AUTHOR INDEX

Ahlberg, S. W., & Sharps, M. J. *Bartlett revisited: Reconfiguration of long-term memory in young and older adults.* 211–218.

Bernardo, A. B. I., Zhang, L. F., & Callueng, C. M. *Thinking styles and academic achievement among Filipino students.* 149–163.

Brook, D. W., Brook, J. S., Whiteman, M., Arencibia-Mireles, O., Pressman, M. A., & Rubenstone, E. *Coping in adolescent children of HIV-positive and HIV-negative substance abusing fathers.* 5–23.

Chapman, P. L., & Mullis, A. K. *Readdressing gender bias in the Coopersmith Self-Esteem Inventory–Short Form.* 403–409.

De Arth-Pendley, G., & Cummings, E. M. *Children's emotional reactivity to interadult nonverbal conflict expressions.* 97–111.

De Lisi, R., & Wolford, J. L. *Improving children's mental rotation accuracy with computer game playing.* 272–282.

Finley, G. E., & Aguiar, L. J. *The effects of children on parents: Adoptee genetic dispositions and adoptive parent psychopathology.* 503–506.

Fireman, G., & Kose, G. *The effect of self-observation on children's problem solving.* 410–423.

Furnham, A., Reeves, E., & Budhani, S. *Parents think their sons are brighter than their daughters: Sex differences in parental self-estimations and estimations of their children's multiple intelligences.* 24–39.

Ghazvini, A., & Mullis, R. L. *Center-based care for young children: Examining predictors of quality.* 112–125.

Gosselin, P., Beaupré, M., & Boissonneault, A. *Perception of genuine and masking smiles in children and adults: Sensitivity to traces of anger.* 58–71.

Gosselin, P., Warren, M., & Diotte, M. *Motivation to hide emotion and children's understanding of the distinction between real and apparent emotions.* 479–495.

Guajardo, N. R., & Watson, A. C. *Narrative discourse and theory of mind development.* 305–325.

Hamarat, E., Thompson, D., Steele, D., Matheny, K., & Simons, C. *Age differences in coping resources and satisfaction with life among middle-aged, young-old, and oldest-old adults.* 360–367.

Hayes, D. S., & Casey, D. M. *Dyadic versus individual storytelling by preschool children.* 445–458.

Kelly, W. E. *Worry and sleep length revisited: Worry, sleep length, and sleep disturbance ascribed to worry.* 296–304.

Klavir, R., & Leiser, D. *When astronomy, biology, and culture converge: Chil-*

dren's conceptions about birthdays. 239–253.

Lavoie, C., & Desrochers, S. *Visual habituation at five months: Short-term reliability of measures obtained with a new polynomial regression criterion.* 261–271.

Lawson, A. E. *The origin of conditional logic: Does a cheater detection module exist?* 425–444.

Leman, P. J. *Argument structure, argument content, and cognitive change in children's peer interaction.* 40–57.

Lilljeqvist, A.-C., Smørvik, D., & Faleide, A. O. *Temperamental differences between healthy, asthmatic, and allergic children before onset of illness: A longitudinal prospective study of asthma development.* 219–227.

Marjoribanks, K. *Environmental and individual influences on Australian students' likelihood of staying in school.* 368–381.

Narduzzi, K. J., & Jackson, T. *Sociotropy–dependency and autonomy as predictors of eating disturbance among Canadian female college students.* 389–401.

Pilgrim, C., & Rueda-Riedle, A. *The importance of social context in cross-cultural comparisons: First graders in Colombia and the United States.* 283–295.

Pillow, B. H., Mash, C., Aloian, S., & Hill, V. *Facilitating children's understanding of misinterpretation: Explanatory efforts and improvements in perspective taking.* 133–148.

Purves, D. G., & Erwin, P. G. *A study of posttraumatic stress in a student population.* 89–96.

Shek, D. T. L. *Family functioning and psychological well-being, school adjustment, and problem behavior in Chinese adolescents with and without economic disadvantage.* 497–502.

Swetkis, D., Gilroy, F. D., & Steinbacher, R. *Firstborn preference and attitudes toward using sex selection technology.* 228–238.

Tomada, G., Schneider, B. H., & Fonzi, A. *Verbal and nonverbal interactions of four- and five-year-old friends in potential conflict situations.* 327–339.

Ullrich, A., Carroll, M., Prigot, J., & Fagen, J. *Preschoolers' inhibition in their home: Relation to temperament.* 340–359.

Walker, S., Irving, K., & Berthelsen, D. *Gender influences on preschool children's social problem-solving strategies.* 197–209.

Woll, B., & Sieratzki, J. S. *Leftward cradling bias, prosodic speech, and deafness: The deaf are not dumb.* 126–128.

Wood, J. J., Cowan, P. A., & Baker, B. L. *Behavior problems and peer rejection in preschool boys and girls.* 72–88.

Yuzawa, M., & Bart, W. M. *Young children's learning of size comparison strategies: Effect of origami exercises.* 459–478.

Zhang, L. F. *Thinking styles and cognitive development.* 179–195.

Zhang, Y., Kohnstamm, G., Slotboom, A.-M., Elphick, E., & Cheung, P. C. *Chinese and Dutch parents' perceptions of their children's personality.* 165–178.

TITLE INDEX

Age differences in coping resources and satisfaction with life among middle-aged, young-old, and oldest-old adults. *Errol Hamarat, Dennis Thompson, Don Steele, Ken Matheny, & Carol Simons.* 360–367.

Argument structure, argument content, and cognitive change in children's peer interaction. *Patrick J. Leman.* 40–57.

Bartlett revisited: Reconfiguration of long-term memory in young and older adults. *Shari W. Ahlberg & Matthew J. Sharps.* 211–218.

Behavior problems and peer rejection in preschool boys and girls. *Jeffrey J. Wood, Philip A. Cowan, & Bruce L. Baker.* 72–88.

Center-based care for young children:

Examining predictors of quality. *Alisa Ghazvini & Ronald L. Mullis.* 112–125.

Children's emotional reactivity to interadult nonverbal conflict expressions. *Gina De Arth-Pendley & E. Mark Cummings.* 97–111.

Chinese and Dutch parents' perceptions of their children's personality. *Yuching Zhang, Geldolph Kohnstamm, Anne-Marie Slotboom, Eric Elphick, & Ping Chung Cheung.* 165–178.

Coping in adolescent children of HIV-positive and HIV-negative substance abusing fathers. *David W. Brook, Judith S. Brook, Martin Whiteman, Orlando Arencibia-Mireles, Mary A. Pressman, & Elizabeth Rubenstone.* 5–23.

Dyadic versus individual storytelling by preschool children. *Donald S. Hayes & Dina M. Casey.* 445–458.

The effect of self-observation on children's problem solving. *Gary Fireman & Gary Kose.* 410–423.

The effects of children on parents: Adoptee genetic dispositions and adoptive parent psychopathology. *Gordon E. Finley & Lyndon J. Aguiar.* 503–506.

Environmental and individual influences on Australian students' likelihood of staying in school. *Kevin Marjoribanks.* 368–381.

Facilitating children's understanding of misinterpretation: Explanatory efforts and improvements in perspective taking. *Bradford H. Pillow, Clay Mash, Samuel Aloian, & Valerie Hill.* 133–148.

Family functioning and psychological well-being, school adjustment, and problem behavior in Chinese adolescents with and without economic disadvantage. *Daniel T. L. Shek.* 497–502.

Firstborn preference and attitudes toward using sex selection technology. *Doreen Swetkis, Faith D. Gilroy, & Roberta Steinbacher.* 228–238.

Gender influences on preschool children's social problem-solving strategies. *Sue Walker, Kym Irving, & Donna Berthelsen.* 197–209.

The importance of social context in cross-cultural comparisons: First graders in Colombia and the United States. *Colleen Pilgrim & Alba Rueda-Riedle.* 283–295.

Improving .children's mental rotation accuracy with computer game playing. *Richard De Lisi & Jennifer L. Wolford.* 272–282.

Leftward cradling bias, prosodic speech, and deafness: The deaf are not dumb. *Bencie Woll & Jechil S. Sieratzki.* 126–128.

Motivation to hide emotion and children's understanding of the distinction between real and apparent emotions. *Pierre Gosselin, Madeleine Warren, & Michèle Diotte.* 479–495.

Narrative discourse and theory of mind development. *Nicole R. Guajardo & Anne C. Watson.* 305–325.

The origin of conditional logic: Does a cheater detection module exist? *Anton E. Lawson.* 425–444.

Parents think their sons are brighter than their daughters: Sex differences in parental self-estimations and estimations of their children's multiple intelligences. *Adrian Furnham, Emma Reeves, & Salima Budhani.* 24–39.

Perception of genuine and masking smiles in children and adults: Sensitivity to traces of anger. *Pierre Gosselin, Martin Beaupré, & Annie Boissonneault.* 58–71.

Preschoolers' inhibition in their home: Relation to temperament. *Anja Ullrich, Marjorie Carroll, Joyce Prigot, & Jeffrey Fagen.* 340–359.

Readdressing gender bias in the Coopersmith Self-Esteem Inventory–Short Form. *Paula L. Chapman & Ann K. Mullis.* 403–409.

Sociotropy–dependency and autonomy as predictors of eating disturbance among Canadian female college students. *Karen J. Narduzzi & Todd Jackson.* 389–401.

A study of posttraumatic stress in a student population. *David G. Purves &*

Philip G. Erwin. 89–96.

Temperamental differences between healthy, asthmatic, and allergic children before onset of illness: A longitudinal prospective study of asthma development. *Anne-Charlotte Lilljeqvist, Dag Smørvik, & Asbjørn O. Faleide.* 219–227.

Thinking styles and academic achievement among Filipino students. *Allan B. I. Bernardo, Li-fang Zhang, & Carmelo M. Callueng.* 149–163.

Thinking styles and cognitive development. *Li-fang Zhang.* 179–195.

Verbal and nonverbal interactions of four- and five-year-old friends in potential conflict situations. *Giovanna Tomada, Barry H. Schneider, & Ada Fonzi.* 327–339.

Visual habituation at five months: Short-term reliability of measures obtained with a new polynomial regression criterion. *Chantale Lavoie & Stéphan Desrochers.* 261–271.

When astronomy, biology, and culture converge: Children's conceptions about birthdays. *Rama Klavir & David Leiser.* 239–253.

Worry and sleep length revisited: Worry, sleep length, and sleep disturbance ascribed to worry. *William E. Kelly.* 296–304.

Young children's learning of size comparison strategies: Effect of origami exercises. *Masamichi Yuzawa & William M. Bart.* 459–478.
